might face or any clarifications you may require during the course.

3. At the end of the training you will have to work on a project, based on which we will provide you a Grade and a Verifiable Certificate!

About the Course

Power BI is a powerful cloud-based suite of business analytics tools that make it easy to combine data from multiple sources, analyze and visualize information and share insights.

Edureka's Power BI course features easy drag and drop report authoring for advanced insights, and online web dashboards that update automatically and can be shared within seconds.

You begin by learning about architecture and components of Power BI along with Power Query and Power Pivot. You will learn about Data Visualization with Power BI Desktop, Power View and Power Map. Along with the process of visualization, You will learn about Power BI Q&A and how the users can discover, explore and visualize their own enterprise. You will be introduced to the Power BI Administration for deployment of files and building dashboards in the Power BI Website.

After the completion of Edureka's Power BI Certification Course, you will be able to:

- Discuss Power BI, Power Pivot, Power view, Power Map

- Discuss Power Query

- Describe Power BI Desktop

- Describe DAX

- Explain Data Visualization

- State Power BI Q&A and Data insights

- Develop Custom Visualizations

- Discuss Power BI Embedded

- Explain Power BI with SSRS Reports

Thanks for the course! This is the best Power BI course that I've come across on the internet. Simple and easily to understand.

sarekha danyinnik 2 months ago

Great to have such a efficient course...need to learn more about live scenarios and DAX functions.....need further more real time assistance.
thank you ,
EDUREKA.
